September 2022 - Present

Presidential Scholarship at SUNY Oswego  
September 2022 - Present

## Experience

January 2023 - Present

### Peer Tutor at SUNY Oswego Office of Learning Services

Actively working with fellow students to develop and deepen their understanding of topics in which they might need assistance. One-on-one work experience with fellow students.

- Constant critical thinking and problem-solving.

January 2024 - May 2024

### Family Tree Website Development at SUNY Oswego

Develop a fully functional web application with the capability to allow users to create, save and share their family trees as an introductory software engineering project.

- Communication with stakeholders and potential clients.

September 2023 - May 2024

### Computer Science Teacher Assistant at SUNY Oswego

Revising and grading students' work for the introductory Computer Science course and holding office hours provide explanation and guidance where needed.

- Development of responsibility and multi-tasking abilities.

July 2022 - August 2022

### Intern Instructor at MakerState STEM Summer Camp

Guided students in Social Emotional Learning Development (self-awareness, empathy, etc) and practice in Executive Functioning (analyzing options, planning, etc.)

June 2021 - August 2021

### Product Development Summer Intern at Verizon and Accenture

Five weeks internship for the summer, with the goal of providing interns with workspace experience.

- Constant problem-solving development.
